***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

- a) the process of Claims 72-73;
- b) the process of Claim 74;
- c) the process of Claim 75;
- d) the process of Claim 76;
- e) the process of Claim 77.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after

Art Unit: 1762

the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. During a telephone conversation with Jim DeCesare on June 30, 2004, a provisional election was made with traverse to prosecute the invention of b), claim 74. Affirmation of this election must be made by applicant in replying to this Office action. Claims 72-73 and 75-77 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. Claim 74 is rejected under 35 U.S.C. 102(a) as being anticipated by Klosowski et al (5789087).

'087 teaches preserving waterlogged materials, such as wood or other artifacts, by impregnating with a composition of a siloxane polymer with at least 2 silanol groups per molecule and crosslinker of the formula  $\text{RaSi(X)}_4$  wherein X can be an oximo group.

6. Claim 74 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Von Au et al (4503210).

'210 teaches applying and curing a protective coating to surfaces that will be in contact with fresh or sea water that comprises a dimethylpolysiloxane with OH groups at each terminus and silanes with 3 and 4 oxime groups (see Abstract; 5:61-6:54).

7. Claim 74 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Klosowski et al (4657967).

'967 teaches applying and curing a composition, as a coating, comprising a hydroxyl endblocked polydiorganosiloxane and tetra functional oximo silane as crosslinker. The composition has the property of protecting against oils and solvents, thus preserving the material to which they are applied (see Abstract; 2:60-7:31).

***Claim Rejections - 35 USC § 112***

8. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

9. Claim 74 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a) Claim 74: it is not clear if the crosslinker of line 4 is the same or different from the crosslinker of line 5.

***Conclusion***

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
